

Iteration 1: A Walk

Execution:

- Create a specific journey, For e.g. my walk from home to school.
- Take pictures of random textures that I see on the way.
- Organise them in the exact order that they were taken in.
- Have location tags with each picture.

OR

- Having pop ups on a map
- Click on location tags to see the picture.

Examples of pictures with location tags

Iteration 2 & 3: Catagories

Execution 1:

- Create different catagories to place the pictures of the textures.

Execution 2:

- Chosing only one specific category for the whole archive.
- Taking pictures from that one category from different areas in new york.

Category: Bark Textures

Examples of the categories:

Scraped side walks ,Paint discolouration, Bark textures, Rusted poles etc
