# Sketch 1:

Theme: 'Temporary Love'

Design:

The design uses the words 'forever' and 'always' but the execution of both, the printed as well as the on-line versions, is temporary and short-term.

Print version:
-It will be printed on a temporary tattoo paper (Something that can only be used once)

-Alternatively it could be printed on butter paper (Flimsy and can be lost/ crumpled very easily and therefore temporary as well)

Online Version:
-A snapchat filter using the same design (Very temporary, goes away in a few hours)
-Interactive so that everyone in class can use it on the day.

Sketch 2:

Theme: 'Temporary Love'

Design:

The design uses the words 'Temporary' and 'Some-times' as a spoof of 'forever' and 'always' to show the idea of temporary love.

Print version:
-It will be printed on normalcard paper just like any other valentines day card but in a mocking/joking way (a spoof on valentines day).

Online Version:
-A coded page with the same hearts, which when clicked on has the words 'Forever' and 'always' replaced by 'Temporary' and 'some-times'
